

1D7XX CYBERSPACE SUPPORT

Learning Program Introduction

This Learning Program, when combined with an AFSC-specific Learning Program, fulfills the specialty qualification and progression requirements as defined by Career Field Education and Training Plan (CFETP) 1D7XX. The material in it covers the core knowledge for all Cyber Support career fields. Each modules directly correlates to the CFETP task structure and proficiency requirements. There is no minimum training time requirement, but a 12 month maximum training time requirement for all AFSCs. Example: Trainee completes the Air Force Career Field Manager established Learning Programs for 1D7XX 12 months.

As you navigate through each module and training tasks, you will notice the following coded symbols.

- (-) When this code is used it indicates that the qualification is a local determination. Training is satisfied through OJT, CBTs, Learning Programs/CDCs, or a combination.
- (X) This mark is used to show training is required but not given due to limitations in resources or is a future requirement. Training is satisfied through OJT, CBTs, Learning Programs/CDCs, or a combination.
- (3) The AFSC-specific Apprentice Course, serves as the initial skills course and must be completed for the award of 1D7XX AFSC. Clickable 3-Level content exists in this Learning Program, but for reference use only.
- (5) When this code is used it indicates the Career Field Manager (CFM) has mandated this task as a core 5-level requirement. The training to satisfy this requirement is either provided via this Learning Program or a combination of the Learning Program with Computer Based Training, On-the-Job Training, or other locally developed training aids.
- (7) When this code is used it indicates the CFM has mandated this task as a core 7-level requirement. The training to satisfy this requirement is either provided via this Learning Program or a combination of the Learning Program with Computer Based Training, On-the-Job Training, or other locally developed training aids.
- (8) When this code is used it indicates upgrade training consists of: (1) Completion of Cyberspace Superintendent Course. Qualification Training is required prior to upgrade to 9-Level. This also applies to tasks in the 9-Level proficiency code column. No clickable content exist in this Learning Program for 9-Level training.

The vast majority of training tasks in this Learning Program are subject knowledge coded as either “A” or “B”, and is defined as:

(A) Can *identify basic facts* and terms about the subject. (FACTS)

(B) Can *identify relationship of basic facts* and *state general principles* about the subject. (PRINCIPLES)

When progressing thru the Learning Program, if a training task launches directly to an e-Learning training course, the trainee should complete the e-learning base product (example: course, video, CBT’s). If a training task launches to a stand-alone document, the trainee should read and comprehend the material according to the proficiency code.

Request assistance from your supervisor, trainer, and Unit Training Manager when having difficulty with any part of training. Once a task has been completed, Acknowledge and document task qualification upon completion of training. Documenting task qualification serves as an official certification of proficiency, certifying the individual is accountable for task performance in accordance with the governing instructions IAW AFI 36-2651 (3 January 2019).

The use of a name of any specific manufacturer, commercial product, commodity, or service in this publication does not imply endorsement by the Air Force.

To get a response to your questions concerning subject matter in this learning program, or to point out technical errors in the text, changes governing source material (ex: New AFI’s or TO’s), please send feedback, updates, or any questions to Q-Flight customer support to: qflight.customer.service@us.af.mil.
