Enterprise Service Unit (ESU)

Proficiency Code: B

Enterprise Service Units (ESU) goal is to manage AF core Services, within the Air Force Network Operations (AFNetOps) community to reduce training, maintenance costs, increase operational flexibility and capacity to the warfighter. ESU will support administration, monitoring, management, and configuration control of AF core services outside the Continental United States (OCONUS) and CONUS sites across the Air Force Enterprise by centralizing the Air Force, Air Force Reserves, and Air National Guard.
